

REGISTRATION FORM

I would like to register for: *(insert workshop/course)*

**THE CLINICAL SCIENCE OF BIOCHEMIC THERAPY AND
.....FACIAL DIAGNOSTICS SEMINAR.....**

On: *(insert date/s)*

Details

Name:

Address:

State: Postcode:

Phone:

Email:

Profession:

Payment Options

Please charge A\$..... to my **Visa / MasterCard**

Card No:

Name on card:

Signature: Exp date:

Please find enclosed cheque/money order for A\$
(Please make payable to Boethetic Pty Ltd,
8 Callum St, Queanbeyan NSW 2620)

Direct payment to
Community CPS account
BSB: 325-185 Acct No: 036 26 786
Acct Name: Boethetic Pty Ltd
(Please quote surname)

Please post or email completed registration form to:

Canberra Body Harmony School
8 Callum Street
Queanbeyan NSW 2620
Ph: 0408 904 353

Email: robyn@tissuesaltstraining.com

PAYMENT DUE BY: 20th October 2017

DETAILS

*The Clinical Science of Biochemic Therapy
and Facial Diagnostics Seminar*
\$700

Students attending upgrade or revision,
an administration fee of \$25 per day applies

4 DAY SEMINAR

3, 4, 5, 6 November 2017
9:30am - 5pm

VENUE

Sundown Motel Resort
205 Narrabundah Lane
Symonston, CANBERRA
ACT 2906

**BOOK EARLY, BOOK NOW!
AVOID DISAPPOINTMENT AS
PLACES ARE LIMITED**

*All text books will be supplied. Students need to bring
personal note books and writing implements.*

*The Clinical Science of Biochemic Therapy examination of
2 hours duration will take place on the final day –
commencing at 1pm.*

P R E S E N T S

The Clinical Science of Biochemic Medicine Dr. (med) W.H. Schüssler

➤ The Clinical Science of Biochemic Therapy Incorporating Facial Diagnostics

- Physiological role of minerals
- Twelve Schüssler minerals
- Cation/Anion bonding pairs
- Absorption
- Deficiencies & causes
- Drug induced nutrient depletion
- All aspects of the use of mineral tissue salts in accordance with Dr. Schüssler
- Brief introduction to the treatment of animals
- An introduction to the biochemic healing methods in accordance with the documented studies of Dr. Schüssler, relating to the facial psychological signs, visible at the onset of mineral deficiencies – subsequently proven by Dr. Kurt Hekethier in the 20th century
- Introduction to the Supplementary Remedies #13-27

The Clinical Science of Biochemic Therapy, accorded to Dr. Schüssler, is a scientifically proven, evidence based therapy and a Continuing Education Module for: Doctors, Dentists, Chemists and Veterinary Surgeons and associated modalities in the EU.

PRESENTER

Robyn Barraclough

Robyn is a Dorothy Hall Trained Herbalist, a Homoeopath and an International Body Harmony Teacher. Her specialty is in teaching people to become more connected to the underlying messages of their bodies, and retraining physical, behavioural and emotional patterns to support their health and wellbeing, and bring their bodies into Harmony.

Robyn teaches Biochemic Medicine and Facial Diagnostics as part of Naturopathic Training Courses; practitioners to extend their skills, and for individuals to support their family's health.

Robyn has created the online version of the course at www.tissuesaltstraining.com.

The Clinical Science of Biochemic Medicine is taught as part of the Advanced Diploma of Western Herbal Medicine (HLT60112), at Om Shanti College, and is recognised with ATMS and IICT as a continuing education unit.

Canberra Body Harmony School conducts the following workshop/courses on behalf of The Institute of Biochemic Medicine (Asia Pacific) and the Biochemischer Bund Deutschland e.V. (BBD) – German Association of Biochemistry – Founded in 1885, and the European Institute for Biochemistry of Dr. Schüssler.

The Clinical Science of Biochemic Therapy includes:

The Basic Principles

The foundation of Biochemistry was laid more than a century ago by Rudolph Virchow, one of the foremost scientists of the day. He discovered that the human body is composed of an enormous number of tiny, living cells. Each cell is made up of an infinitesimal but perfectly balanced quantity of three classes of materials – water, organic substances and inorganic substances. Water and organic matter such as sugar, albuminous and fatty substances make up the greater portion of the body. The inorganic (mineral) elements, although present in much smaller quantities are the really vital elements. They are the active workers which utilize the inactive substances in building the millions of cells that the body is composed of. The life of these cells is of short duration – millions are constantly breaking down and new ones are just as rapidly being built up, providing there is a constant supply of the necessary material for this continuous rebuilding process..

Dr. Schüssler's Therapy

Dr. Schüssler determined that these inorganic substances are present in the body as compounds (mineral salts) and named twelve principal compounds which he called "tissue salts". He defined the types of disease (symptoms) arising from a deficiency of each tissue salt. With this knowledge he was able to prescribe with great accuracy and effect. Dr. Schüssler studied the function of each of the twelve tissue salts and was able to define the type of disorder caused by the disturbance of the physiological balance of each tissue salt.

The five proven principles of Dr. Schüssler Biochemistry:

1. Disease does not occur if cell metabolism is normal
2. Cell metabolism is in turn normal if cell nutrition is adequate
3. Nutritional substances are either of an organic or inorganic nature where the body is concerned
4. The ability of the body cells to assimilate and to excrete and further to utilize nutritional material is impaired if there is a deficiency in the inorganic minerals constituents of cellular tissues
5. Adequate cell nutrition may be restored and cellular metabolism normalized by supplying the required tissue salts to the organism in an easily assimilated form.

Facial Diagnostics includes:

In depth facial diagnostic skills, interpreting facial signs including lines, shadows and shines, psychological signs, in accordance with the evidence based proven and recognised methods of the German School of Facial Diagnostics.

Course Outcome:

- Thorough understanding of the 12 minerals
- Signs and symptoms of mineral deficiencies
- The wide ranging fields of application
- Methods of administration
- Indications – Contraindications
- Knowledge regarding Sulphates as biocatalysts
- Drug induced mineral depletion
- Detoxification, Pregnancy, Female disorders, etc.
- Facial diagnostics: 'Tool' to assist diagnosis with the ability to recognise mineral deficiencies, assisting in the confirmation of physical and psychological signs & symptoms
- An understanding of the use of Supplementary Minerals 13-27
